Donor Designations

United Way of Clinton County uses experienced and knowledgeable volunteers to distribute the money raised during campaign. These volunteers review each program request for funding for its community, financial, and program need. In addition, each program must show outcomes and results in their community impact area. The volunteers work hard and make tough decisions to see that your contribution is used effectively and where it will have the most impact.

We ask that you support their decision on how the funding should be used. They have spent hours learning about services and needs in our community to make sure your contribution makes the greatest impact it can.

We request that you do not designate your gift unless you truly could not give to United Way without using the designation option.

Please be aware that:

- A **\$48 minimum gift** is required.
- The Designation Form must be received by **12/31/2018**.
- Designations cannot be made to capital campaigns.
- Only individual contributors can designate their gifts.
- Designations will not be honored if they are part of an organized effort to promote or deny a gift to any agency or program.
- All designations to non-partner agencies will be reduced by an uncollectible rate of 6% and an administrative/processing rate of 14%. An administrative of 14% will be applied to member agency designations.
- If the form is not accurately and completely filled out or if the agency does not qualify, your gift will be allocated through the Citizen Review process.
